LICENCE NUMBER PLATE RECOGNITION - ADD ON

Our license plate recognition camera provides precision scanning on high-speed, high-traffic roadways to capture more data than ever.

A new, state-of-the-art sensor makes images crystal clear and detections accurate day and night.
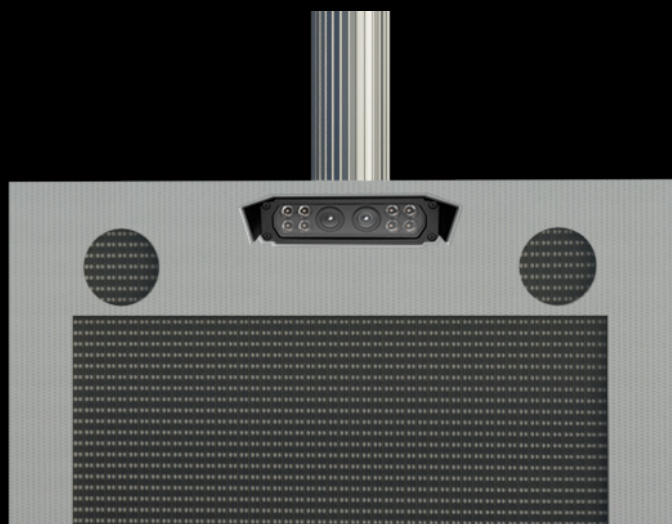

Take your pick from a broad line of lenses to suit your deployment location for near or far targets.

Capture all vehicles or only over speed vehicle licence number plates with custom database logs.
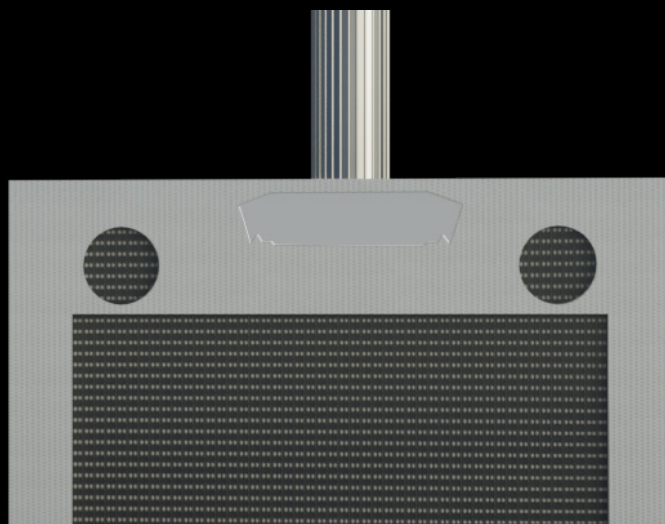

PLUG N PLAY
Removable and interchangable with multiple StreetGuard Vision Speed Signs
